

Cardio-Oncology in Practice

28 June 2019, Farringdon, London

The UCLH Cancer Academy is pleased to offer places at our second Cardio-Oncology in Practice study day.

Hear expert speakers give an up-to-date review of the emerging field of cardio-oncology. This study day will focus on the practical management of cardiac and vascular conditions in patients with cancer and cancer survivors.

This study day will be useful for cardiologists, oncologists, haematologists, general practitioners, nurses, physiologists, pharmacists and anyone involved in the care of cancer patients. It offers a unique opportunity to hear about this innovative area from cardiological and oncological perspectives in a single forum.

Feedback from our 2018 study day:

“Really useful and relevant to current practice. I really liked the collaboration between specialties.”

“Expert speakers with engaging presentations.”

“I recommend to all nurses and other professionals.”
